 - B. WEO updated commissioners on DEP approval for Emergency Dam Repair Authorization at Doolittle Lake. Weir boards have been removed and the water level is low enough to allow for work. Individual landowners are taking advantage of the low water level to make repairs of their docks. WEO showed the commission photos of each landowners dock and reviewed their applications. The commissioners concurred with WEO agent approvals, given the short time frame to effect repairs. With conditions imposed by Doolittle and Town of Norfolk, the commission did not see any adverse impact to the lake bed.
